

# WHO AM I?

**There once was a guy who saw a chance to make a fast buck,**

**just become a home inspector with no fear of bad luck.**

**He hung out his shingle and thought he knew it all,**

**With plans to make easy money after a phone call.**

**The banner of ASHI appeared on his door,**

**with Standards of Practice, a Code of Ethics and more.**

**Local chapter meetings and educational seminars were available to attend,**

**so he signed up and went but could not pretend.**

**What he didn't know was frightening he was lucky to learn,**

**and a life time of learning he did finally discern.**

**ASHI was there for all of his needs,**

**with education and marketing or just planting seeds.**

**Many years later this seasoned lad,**

**became an ASHI member and boy was he glad.**

**He kept attending meetings and coached the new guys too,**

**take a look in the mirror - hopefully its you!**

**Bob Mulloy**
